HEAVY DEFALCATION OF AN INDI-ANA OFFICIAL.

The Rate War-Libel Suit Ended-The Striking Laborers-Foreign Affairs.

(SPECIAL DISPATCHES TO THE RECORD-UNION.) DOMESTIC

The Great Railroad Strike. St. Louis, March 10th.-The situation emains unchanged in East St. Louis this morning. The Knights of Labor there have not struck as yet, but large numbers of that organization from this city are there attempting, it is supposed, to persuade them to join the movement. The effect of the strike in St. Louis upon the cattle trade is especially severe. No stockcars can cross the bridge, and, therefore, the receipts are materially lessened as the strike proceeds. General Superintendent strike proceeds. General Superintendent Kerrigan of the Missouri-Pacific this morning issued an order expelling from the Missouri-Pacific yards all Knights of Labor. This order includes the del gation of men appointed by the Knights to guard the company's property.

The circular issued to the strikers ordering them off the company's premises, is as

You are hereby notified that your action in withdrawing from the employment of the Missouri-Pacific was the voluntary abandonment of the service of the company, and that you are no longer in its employment, and that your names have been stricken from its rolls. All such who are now about the company's premises are hereby notified that they must immediately leave the same, to the end that this company may resume the treffic of the company.

Although the officials will make no state.

Although the officials will make no statement concerning the affair, it is generally believed that they are now employing new men to take the places of the strikers, and that the movement of freight trains will be attempted to night. Should this prove true, the Knights of Labor will undoubt-

edly offer resistance. QUIET WITHDRAWAL OF THE STRIKERS. St. Louis, March 10th-2:30 P. M.-It is now authoritively stated that the Missouri Railway Company will attempt to-morrow, instead of to-night, as stated in a previous dispatch, to resume freight traffic upon its road. The order issued this morning by Superintendent Kerrigan applies not only to the men formerly in its employ in this city, but to all the strikers on the system, and they have all along the line of the road withdrawn quietly from the company's oremises.

THE FIRST TROUBLE. St. Louis, March 10th.—A special from Fort Worth, Tex., to the *Post-Dispatch*, states that the first trouble there between the Knights and non-Knights occurred this norning, when the new men employed by the railroad to run its engines were at-tacked while performing their duty, and STATEMENT OF GRIEVANCES.

ago the Texas and Pacific Company em-ployed some seventy men to work in the machine shops of the company, on conition that when the company was through with their services, in thirty or ninety days, the men would be discharged. In-stead of discharging the men as agreed upon, the old employes were discharged, in our opinion on account of their prominent part in the organization of the Knights of Labor. The company refused to hear and adjust the grievances of Conductor Bissett, and dismissed him without sufficient cause. Bissett was an earnest worker in the cause of the Knights of Labor. The next grievance mentioned is the discharge of C. H. Hall, already referred to in these dispatches. Hall was charged by the announcing his discharge. A committee was appointed and waited on Mr. Crosby, Hall's superior, to ascertain why Hall was discharged. Crosby said it was because of Disestablishment of the Church of Enghis incompetency, and denied that Hall

had ever asked his permission to be ab-sent. After repeated overtures to the Receivers for a hearing on the matter, the Executive Board first submitted the question to the different locals on the system for their action, which was that Mr. Hall reinstated. Therefore, it is plain that action taken on this strike was voluntary on the part of each and every man belong-A Postoffice, School and Store are ing to the Knights of Labor." The letter is signed by P. J. Nolan, Chairman; John A. Williams, Vice-President, by order of the

> PENSED WITH. Sr. Louis, Match 10th.—An order has been issued by H. M. Hoxie, First Vicethe heads of all departments of the road, to at once dispense with the services of every employe not positively necessary to the company in its present crippled condition. This means that many telegraph operators, 1,500 freight-house hands, 890 clerks, 150 crossing watchmen, 100 to 150 firemen, and many other, complete the Cabinet job in the choice of Dr. Donaldson as the new principal of St. Andrews 'University. Conductors will receive pay only when they run, and this is equal to assembling nearly 400 freight conduct. to suspending nearly 400 freight conductors and others necessary to running local and through freight. All told, it was stated that nearly 5,000 persons not interested in the present strike will suffer the loss of

their salaries until the Knights return to work. It is stated, on the authority of a high official, that individual rotices are being sent by the company to all strikers hat their names are stricken from the paycoll, and they are discharged from the serv-

Indianapolis (Ind.), March 10th.—The Daily News' Vincennes (Ind.) special says: An examination of the books was concluded this forenoon, and shows an approximate shortage against County Treasurer Hollingsworth of \$78,000. THE LESSON OF RETROSPECTION.

In searching numerous newspaper files recently for a matter of recorded State history, the eye constantly met the expressions of the press of California in debates upon the Chinese question, for a period covering the time between this date and 1866. The effect was to recall more vividly to memory the position of the press in the early history of the Chinese agitation. What was written in the more thoughtful journals ten, fifteen and twenty years ago, would, if reproduced now, well fit the situation of to-day. It would reveal that in fact the State has not made much progress against the Chinese. Beyond the passage of Restriction Acts that are practically inoperative, and do not restrict immigration as was anticipated, and the more general and bold assault of the Chinese upon free labor, the country is just about where it was in the labor fallacies and contending that Chinese labor is uneconomic and undesirable swelled to 140,000. Our contemporary attributes the disinclination to work, to a degree, to the presence of Chinese. They have made it "disreputable," in a large degree, to engage in manual labor. Chinese labor has done in a measure for this State what slave labor did for the South. The comparison is true, except that in the South the vice of idleness became hereditary through the continued action of the cause, while in this State we have grappled with the cause from the time its evil effects became visible. There is no the time its evil effects became visible. There is no the time its evil effects became visible. There is no the time its evil effects became visible. The Convention was called to order by George B. A. A. Sargent, of San Francisco, pre-

sented a minority report. He said that there was not a line in the majority report to which he did not agree. The minority differed only on the point about boycotting. [Cries of boycott.] He favored boycotting when the necessity came for it, not before, and that time had not come. He referred to his eventioned and his come. referred to his experience and his record in Congress, and declared that the wise policy was to exhaust appeals to Congress first. [Efforts to interrupt Mr. Sargent.] He appealed to the Convention to hear him ut. He had done enough in the anti-Chinese cause to entitle him to be heard.

[Applause.] He wanted all legislative remedies applied before any boycotting was attempted. The vote of the Convention ought to voice the senti-ment of the people of the State. We should say to Congress: "Yield to our lemands, for they are just." The only fear was that by precipitation we may lose the advantage we have. The coast delegation in Congress is a unit on the question, and its hands must be upheld. It is a fallacy to suppose Congress is in favor of re-striction of Chinese immigration. The preponderating sentiment there is that we are un-American, unchristianlike. If we are divided now we will strengthen that false idea, and hurt the cause where it has most need of strength. [Cries of order.] Calm action is what is needed to induce Congress to pass the Mitchell bill. The majority report he thought to be superficial. To throw in the boycott now was to throw in a firebrand, and the result will be disastrous. He favored the boycott, as did his forefathers in Boston harbor, but extreme measures should be resorted to only in great ex-tremity. It is dangerous to handle edged tools carelessly. Mitchell's bill is tremblin in the balance, and must not be jeopardized. There are one-third as many Chinese in California as there are adult males in the State. It would take three or four years to deport them all. Are we to bank-rupt the agriculturists, he asked, or appeal Congress? We should prevail by the force of reason and justice. Mr. Sargent, after speaking long and earnestly, read the minority report, as follows, as an amendment to the majority report:

ment to the majority report:

Resolved, That we recognize the fact that the presence of the Chinese for the past thirty years on this coast has given them, to a certain extent, control of the labor market, and that their immediate expulsion, even if possible, would work great injury to special interests. While, therefore, we are in favor of eliminating, as rapidly as possible, this element from our body politic, we are opposed to organized ostracism or boycotting of employers until the failure of all hope of Congressional or other relief makes such measures imperative to prevent the Mongolianizing of this coast.

A. J. Bryant became very much excited. Said if the Convention so desired he was willing to let all the citizens of Sacramento come in and discuss matters, and take part the proceedings. He wanted the Con-

Let the names of the duly authorized delegates be properly ascertained and a roll-call made Major Marion Biggs moved the previous question. Mr. Estee submitted the report of the Committee on Credentials, which was read by the Secretary. It was a complete list of all duly elected and appointed delegates.

On motion of Mr. Gregory, of Amader, four Sergeants-at-Arms were appointed, with instructions to exclude from the floor all persons, except members of the press and duly accredited members of the Convention. The Sergeants-at-Arms thus appointed to meet a like committee from the Sacramento Convention, for the purpose of conference.

Mr. McGlashan, on being introduced by Mr. Katzenstein, made a short address, thanking the Convention for the honor conferred. He said it was one of the most nportant Conventions ever assembled in the State. If the members deliberated with calmness, acted with discretion and conservatism, a great and lasting good can be accomplished. No doubt, coming as they did from every section of the State, and representing every industry of Cali-fornia, there would be a difference of views and ideas. He had no doubt that all interests could be harmonized. [Cheers.]

The Secretary of the San Jose Convention then called the roll of that body, a large

Grice & Co., have made a great improve ment in the appearance and convenience of the buildings, and when they complet the work visitors will find the place very neat and comfortable. The most notable improvement is that made by Charles Mund, formerly of the Mint Restaurant who has sublet the dining-room portion of the establishment, and fitted it up ex cellently. The kitchen, meat-room, store room, pantry, etc., are models of neatness produced with an abundant yield; add to and cleanliness, and the main dining-room this our magnificent grain fields, and our is kept in perfect order. Mr. Mund has a French cook, and will keep his larder well stocked with substantials and luxuries. Heretofore, the Bay District course was the only one in the State where private parties could be served in a satisfactory manner. This change at Agricultural Park will, therefore, put the

A Trip Up the River.

On Sunday morning, says a correspondent, the steamer Neponset No. 2, George E. Bates, Commodore, sailed for the upper Sacramento. On board, by invitation of Mr. Bates, were a couple of Sacramentans. who were accompanied by a party of ladies and gentlemen from the East. The pur-pose of the trip on the part of the steamer's guests was to get a view of the country now overflowed by water. On the right hand side thousands and tens of thousands of acres seemed to be covered with water in fact, it had more of the appearance of an inland sea than anything else. Judge Beatty's ranch seemed to be about the only place on that side of the river, for a dis tance of about sixteen miles, not entirely covered by the overflow. The country op posite presented quite a contrast, the water having almost disappeared and the fields being carpeted with a beautiful green. Ben Crocker's and Lovedal's ranches seemed to be free from water, except in low places. At noon Mr. Bates invited the company to partake of a splendid dinner, prepared on board for the visitors. After prepared on board for the visitors. UNDER HEAVY MENTAL STRAIN.-There are of course immense differences among men as regards capacity for performing mental work of any kind. Some men can stand an enormous amount of mental strain without any apparent injury; others, from what may be called, for want of a betfrom what may be called, for want of a better term, "weakness of brain," are incapable of anything requiring mental tension. The worst consequences are noticed in people of moderate brain power, who, in the absence of proper training, attempt the performance of severe mental labor. Is not possible when the blood is impure, and recovery from any ailment must be slow and uncertain while that condition continues. The Blood may be corrupted by the taint of Hereditary Scrofula, and the poisons of Mercurial and Contagious Diseases, and also by impurities implanted in it through excesses in living, improper food, derangement of the digestive and assimilatory organs, and other causes. The first external evidences of such vitiation are Blackheads, Pimples, Sties, Eruptions, and Boils. Yet more serious are the symptoms showing its internal effects in depression of the Spirits, Lassitude, Weariness without effort, Headaches, Dizziness, and enfeebled circulation. Be warned in time!
